

Microsoft Teams Rollout - Soulinspire Outreach International

Project Overview

Project Role: Cloud Engineer Consultant

Date: May 2025

Overview:

Led the second-phase deployment of Microsoft Teams for a U.S.-based personal development firm using Microsoft 365 Cloud solutions.

Key Deliverables

- Provisioned and licensed 10 new Microsoft 365 users.
- Created 5 departmental Teams (Sales, Executives, Technical Support, Developers, Customer Service).
- Configured private and shared channels for secure and external collaboration.
- Created and assigned custom Teams policies for Meetings, Messaging, Calling, Caller ID, and Audio Conferencing.
- Enabled anonymous Teams meeting access to support external participants.

Project Outcome

Project completed within a strict 2-week deadline. Enhanced organizational communication, enforced collaboration governance, and created a scalable Teams infrastructure.
